LIGHTING

- Livewell
- Navigation
- Anchor
- Courtesy

HARDWARE

- Stainless Steel Wheel with Knob
- Stainless Steel Bow Eye
- Stainless Steel Stern Eyes
- Stainless Steel Rod Holders
- Compression Latches
- Friction Hinges
- Fuel Water Separator
- Jack Plate
- Coal Tar Epoxy Coated Fuel Tank

AMENITIES

- Horn
- Battery Switch
- Hydraulic Steering
- Trim Tabs
- Anchor Locker
- Swim Ladder

PARTIAL LIST OF AVAILABLE OPTIONS

- Tower
- Hard Top
- T-Top
- Leaning Post
- Wash Down (Fresh and/or Raw)
- Power-Pole™ or Talon™
- Trolling Motor

SPECIFICATIONS

Length	25'6"
Beam	8'4"
Transom Height	25"
Maximum Horsepower	500 hp
Maximum Persons	10
Draft	13"
Baitwell 1 Standard	40 gallons
Baitwell 2 Standard	30 gallons
Baitwell 3 Optional	40 gallons
Fuel Capacity Standard	74 gallons
Fuel Capacity Optional	90 gallons
Weight	2,800 lbs
Deadrise	12 degrees
Anchor Stock Width	22"
Gunnel Height	21"
Width on Trailer	10'
Length on Trailer	32'6"
Height on Trailer	8'

VERSATILITY, HANDLING AND FAMILY FRIENDLY

Our entry into the hybrid bay boat market is a stunning departure from traditional bay boats. We took over two years to design the Malvado’s aggressive styling and complex running surface, and included new features like multiple helm options, seating for up to 10 people, up to three baitwells (front and back wells are standard), an extra-large fish box, lockable rod storage, coaming bolsters, jack plate, tons of storage and room for an enclosed head. The under gunnel rod storage is even unique, accommodating fully assembled fly rods. Our effort was rewarded with superior performance, ergonomics and versatility. Designed for both inshore and near shore applications, the Malvado’s ventilated twin step v-pad hull produces better speed, efficiency, stability and handling than her competition. She is a super stable platform that handles open bays and near shore trips with ease. A hull draft of only 13” gives her access to the skinny stuff, while the sharp entry and flared bow shed water when running in chop. The Malvado 26’ features an ample front deck with storage and integrated seating, as well as a large aft deck with jump seats and storage. If you’re looking for the best hybrid bay boat on the market...you've found it.

BONEFISH DIFFERENCE

INDIVIDUALITY

Because Bonefish boats are built-to-order, our owners actively participate in the design and personalization of their boat. All boat models offer multiple console and seating options. Color(s) and upholstery are also selected by the owner. This unparalleled level of participation in the design process ensures that no two Bonefish boats look exactly the same.

YACHT-QUALITY RIGGING

All Bonefish boats are rigged with marine-grade tinned copper wiring tied to switches with individual breakers. Wires are routed neatly to create more room in compartments and make it easy to add electrical options as well as diagnose electrical failures should they occur. Critical junctions are tied together with heat shrunk connectors.

LASTING VALUE

One look at NADA™ confirms that our owners' decision to invest in a custom Bonefish boat is rewarded with superior long-term value and decreased depreciation.

TECHNOLOGICALLY ADVANCED, SUPERIOR MATERIALS, FIRST-CLASS FIT AND FINISH

Bonefish boats are designed using a semi-monocoque technique to promote strength and rigidity, and are constructed from premium uv-resistant gelcoat, epoxy vinyl ester resin and high-density fiber-reinforced transom board.

A vacuum assisted infusion process is used to construct the aramid (Kevlar™), carbon fiber and fiberglass composite parts. These superior laminates make Bonefish boats both light and strong.

The marriage of superior design with exceptional compositess make Bonefish boats the perfect choice for discriminating fishermen.

bonefish

bonefish

Founded in 2011, Bonefish is known for technologically advanced step bottom v-pad fishing boats. Bonefish boats are built using state of the art materials that yield unrivaled fit and finish to ensure our boats look as good as they work. It's time you enjoyed the quality and prestige of a custom boat. It's time to step up to a Bonefish.
